# OUR VISION

To empower the most vulnerable societies to be able to live in a healthy environment with sustainable quantities of high-quality water

# OUR MISSION

To develop environmental projects that effectively assist local populations in reaching water security and developing sustainable livelihoods

# OVERVIEW

# OUR VALUES

We aim for quality in what we do and are committed to developing projects that favor innovative solutions. We ensure transparency and accountability throughout their development and implementation.

Additionally, we aim to promote peace and cooperation through water diplomacy, especially in areas of conflicts.

# OUR STRATEGY

## Our Strategic Goals

In 2018, GIWEH adopted new strategy on 2018-2022 where it focus on 3 main themes:

1. Public Private Partnership
2. Youth empowerment in innovation and technology
3. Implementation on ground

These 3 topic will be included on community based approach and capacity building.

# OUR IMPACT

In 2018, our energy has been devoted to move forward from the design and implementation of flagship projects (Support 2030 Sustainable Development Goals) to implementation plan which reflect our values, deepen our impact on environmental issues, and help us promoting good standards of living in remote areas.

We measure our impact not only by the successful implementation of our projects, but also by their effectiveness in improving the life quality of the populations targeted over the long term.

We also measure our impact by our ability to generate incentives amongst the most vulnerable ones in creating meaningful changes.

## OUR GOALS

Clean water

Good health

Rurality

Equity & Affordability

Human

Knowledge Base and Dissemination

# MESSAGE FROM THE DIRECTOR GENERAL DR. NIDAL SALIM

Water, as a crucial and relatively rare resource, plays a key role in the creation and maintenance of human security regarding the environment. In fact, water scarcity is likely to cause security threats both nationally and internationally.

Human security is a paradigm in which security is defined by the needs of individuals rather than of states. It takes into account the changing nature of international security, where new threats come from non-state actors and the international economic system is moving toward multipolarity. Increasingly, human security has also come to emphasize the relationships between the environment and society.

GIWEH is committed to supporting the 2030 Sustainable Development Agenda at local and regional scale, targeting the most vulnerable regions and populations in remote areas through its flagship project launched in 2016, with an in-depth focus on equity, accessibility and affordability. Specifically, the main targets we focus on within Sustainable Development Goal 6 are and targets (6.1, 6.2, 6.5, 6.a, and 6.b).

**Continue..**

Our core values and mission of “Leading civil society and water innovation towards providing smart water solutions” will remain unchanged in GIWEH’s (2019-2021) strategic plan. We will continue to uphold our principles of moving toward implementation, and supporting the main knowledge gaps within the water sector.

To respond more effectively to the water agenda, GIWEH focuses on;

- Integrated Water Resources Management
- Water Governance: Supporting the voices of citizens and academia as part of the decision-making
- Empower Youth and Women as key leaders in water and environmental management
- Monitor the Policies and Strategies
- Rural Development
- Bridging the gap between scientists and decision makers
- Enhancing the role of science and technology in solutions and implementation
- Moving toward implementation with a focus on nature-based solutions
- Support and building of Public Private Partnerships (PPP)

**Continue..**

2018 has been an extraordinary and momentous year for GIWEH. It has been the year to highlight the equity, access and vulnerability gaps at the international level. We expanded our long-term partnerships with academia and civil society to consolidate and highlight the voice of the most vulnerable and isolated people, including them in international events and supporting their projects at the local level through our worldwide network. In 2018, GIWEH gave great attention to challenges related to rural development, which still suffer from major gaps in the transfer from the Millennium Development Goals (MDG) to the 2030 Sustainable Development goals (SDG) agenda.

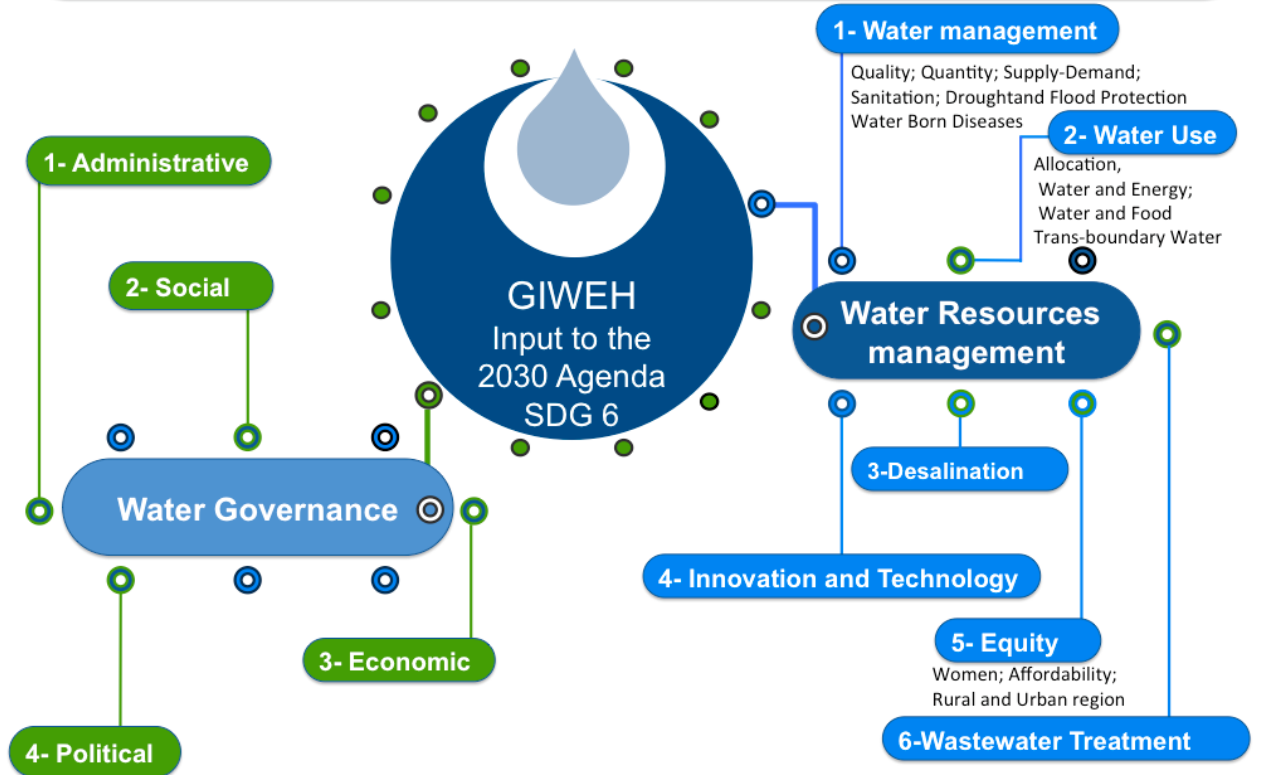

I would like to extend my heartfelt gratitude to the team of GIWEH. Without their hard work and dedication, our many successes would not have been possible. I also wish to sincerely thank the partners and sponsors who supported us during our twelve years of development, and encourage other partners and sponsors to join us to support the most vulnerable people with added value to the isolated areas by working on the ground.

For the coming year, GIWEH pledges to continue to deliver knowledge base and technology transfer to the local community in the most professional and responsible manner, and to move a step forward toward implementation of small projects on the ground which are focused on rural development.

# OUR PROJECTS

## WATER SUSTAINABILITY

Groundwater and surface water management - governance studies / strategies and policies

# 1. Water Map

**Where:**

Geneva, Switzerland, launched 2017

**Partners:**

Département de l'instruction publique

**Duration:**

4 years minimum

**Project at a Glance:**

The project targets local kids, and the collection of information on the water resources & challenges in the Geneva area.

**Education**

**Capacity Building**

Kids will be encouraged to collect data & map them, through a participative approach that fosters inclusion, promotion of good practices and awareness raising.

# 2. Water for Rural Development - Tunis

**Where:**

Fernana, Tunisia, launched 2017

**Partners:**

UTAP; Tunisia Ministry of Water

**Duration:**

5 years minimum

**Project at a Glance:**

The project helps farmers adopting infrastructure & innovative technology for water storage & supply. The project aims to reduce economic uncertainty within the agricultural sector while promoting good practices amongst local population, job creation and innovative solutions

# 3. Monitoring realization of water related SDGs and rights in Kenya

**Where:** Kenya,  
Preparatory phase: 2017-2018  
Official launch: 2019

**Partners:** Ministry of Water and Sanitation, and  
KEWASNET

**Duration:** 3 years minimum

**Project at a Glance:**

The central goal of this project is to ensure the absorption and alignment within the government of Kenya of the indicators, monitoring mechanisms and institutions required to track progress on Sustainable Development Goal 6 on water and sanitation.

**Technology**

**Capacity Building**

# 4. Achieving Water Security

**Where:** Sool region, Somalia

**Partners:** Soutien Sans Frontières,

**Duration:** 1 years minimum

**Project at a Glance:**

The project aims to secure the access of locals to water through the creation of strategic water points. It will reduce and secure the distance travelled by populations to water points.

The project aims to empower local communities, and especially the most vulnerable ones, in developing sustainable livelihoods. GIWEH conducted the hydrogeological study for the project

Infrastructure    Capacity Building    Gender Equality

# 5. GIWEH - Nepal Initiative Memorandum of Understanding with SOPHEN

Where:	Kathmandu – Nepal Preparatory phase: 2018 Official launch: Nepal Knowledge Water Hub, 2019
Partners:	SOPHEN
Duration:	1 years minimum
Project at a Glance:	The MOU will promote cooperation in various fields, including exchange of personnel, the sharing of knowledge and technical information, the joint organization of workshops, seminars, forums or symposiums, the production of joint research.

Infrastructure    Capacity Building    Gender Equality

# HIGHLIGHTS OF 2018

# In 2018 :

Amongst many major achievements :

We built **3** effective partnerships

- SOPHEN (Society of Public Health Engineers - Nepal)
- Water Business Partnership- Asia Water Council
- Pakistan Water Partnership

We were on the board of **4** Conferences

- Vietnam Water Week, (March 2018)
- Water and Climate Change, Kathmandu-Nepal, April-2018
- Palestine Water Forum June-2018
- Korea International Water Week (KIWW), September 2018

and attended over **10** around the world

We cooperated with many universities from several regions as part of GIWEH (UCAN initiative- Union of Civil Society and Academia)

# World Water Forum at the UN High Level Political Forum (18-23 March, 2018)

- World's biggest water-related event, the 8th World Water Forum, took place for the first time in the Southern Hemisphere in Brasilia, Brazil organized by the World Water Council, the event aims to, inter alia, promote awareness, build political commitment and trigger action on critical water issues at all level.
- Once again, GIWEH was taking a proactive role by focusing specially on the role of civil society on the Sustainable Development Agenda (SDG) and by participating to the different thematic sessions. According to Dr. Nidal Salim, general director of GIWEH, the 8th WWF offered a unique chance to address the issue of water sustainability. The Citizen Forum held during the event, created a dialogue between different actors and citizens such as experts, refugees and displaced people and will give them the opportunity to discuss action plans, projects implementations and strategies, to best reach the objective 6 of the UN Sustainable Development Agenda.
- GIWEH encouraged the CSOs and NGOs of all over the world to bring their voices and messages to the Forum.

# GIWEH at the 8<sup>th</sup> World Water Forum Brasilia, Brazil *“Sharing Water”*

GIWEH was a committee member of World Water Forum’s the Citizen Forum, aimed at encouraging the participation of civil society in discussions on how to tackle water issues. Participants ranged from NGOs and organized indigenous movements, to farmers, business people, and youth. The Forum especially aimed to involve stakeholders who are generally less informed and involved in water policy discussions.

70% of the people invited by GIWEH were from vulnerable regions to effectively highlight the challenges facing countries such as Somalia, Nepal, Azerbaijan, Vietnam, and Yemen.

GIWEH additionally hosted several sessions at the conference and lead discussions at the WWF’s Hydro Café, a space dedicated to debates and interviews on water related topics.

# GIWEH at the 8<sup>th</sup> World Water Forum Brasilia, Brazil *“Sharing Water”*

## UCAN – United Communities Academia Network

GIWEH launched an initiative for cooperation that unites and connects organizational communities with academia at the [8th World Water Forum \(WWF8\)](#) which took place on March 20, 2018, in Brasilia, Brazil. It aims to create a strong and active civil society and academia network, which is still lacking behind in the governance process.

This initiative was launched at the Swiss Pavillon at a very special event - during a session on Supporting the 2030 sustainable development agenda through community-based approaches. It was introduced to a large audience, encompassing the regional representatives of more than 500 NGOs, leaders and coordinators from Africa, Asia, Central Asia, Europe, MENA region and South America.

# GIWEH at the 8<sup>th</sup> World Water Forum Brasilia, Brazil *“Sharing Water”*

## UCAN – United Communities Academia Network

During the 8th World Water Forum, GIWEH launched **UCAN**, an initiative for cooperation between academics, governments, NGOs, and development organizations.

Its goal is to build an inclusive and international network of development actors participating in policy making which supports the UN Sustainable Development Goals

### **The 4 main objective of the alliance are:**

- To support research and academic institutions nationally and internationally,
- To provide NGOs with appropriate technologies and tailor-based innovations,
- To build a positive environment conducive to cooperation at local and regional levels, and
- To build a holistic interactive dialogue between academia NGOs, private sector and governments, in order to enhance good governance and to align to the People, Science and Government initiative.

UCAN is open to all NGOs, universities and research institutions, and is looking for active partners to join us in achieving our objectives.

# GIWEH at the 8<sup>th</sup> World Water Forum Brasilia, Brazil

Global Institute for Water (GIWEH) participated on the session with American Society of Civil Engineering (ASCE); Imperial College London; National Water Agency (ANA); UNESCO-IHP; World Meteorological Organization (WMO)

The session was focused on data and knowledge co-generation for the water and climate goals and the session focused on people, science and Governments and towards inclusive knowledge co-generation for the water and climate goals.

On panel discussion there were Nestle/SDC project of Vietnam by Carlo Galli, Imperial College London by Jonathan Paul, CEMADEN National Center for Monitoring and Early Warning of Natural Disasters – Brazil by Regina Alvalá and IPAM Amazônia by Erika Pinto

Dr. Nidal Salim, Director General of GIWEH provided a brief recap of the session with a focus on a set of recommendations on how to better engage the public in contributing to the 2030 Agenda and to the climate goals.

# GIWEH at Singapore International Water Week 8-12 July

Organized by the Asia Water Council, this truly global conference brought together more than 2400 participants from 110 countries and regions. The event especially highlighted new technical methodologies and strategies to tackling water issues in Asia, and brought together a wide range of stakeholders from governments, private sector, to civil society groups to discuss them.

GIWEH participated as a board member of the Asia Water Council and the vice-chair of the “knowledge-base and dissemination” special committee, continuing its commitment to a holistic approach to water management.

# GIWEH at the Kick-Off Meeting of the 2nd Asia International Water Week, Singapore

Singapore International Water Week held on 9th to 13th of July 2018 marked the kick-off of the second Asia International Water Week Process.

The event provided space for the discussion of concrete solutions to water issues in Asia, most notably through technical methodologies and strategies such as Smart Water Management technology, and to bring together a wide spectrum of water stakeholders from governments, the public sector, the private sector, and civil society.

# GIWEH at the 3<sup>rd</sup> Mediterranean Water Forum

GIWEH Participated as moderator on opening session on Round Table Discussion in 3rd Mediterranean Water Forum held on 22nd to 24th January 2018 whereas on closing ceremony at 8<sup>th</sup> World Water Forum on Regional project. The projects put on discussions were:

- Water Knowledge Platform by EMWIS, IME, IOWATER, MENBO
- “Governance and Finance” in the Mediterranean region by GWP-Med
- Arab Action Plan by Dr. Khaled AbuZeid, Arab Ministerial Council (CEDARE)
- UNESCO science diplomacy initiative “Water Security for All”

# GIWEH at the International Conference on Water, Environment and Climate Change (10-12 April) *Kathmandu, Nepal*

GIWEH General Director Dr. Nidal Salim participated as a speaker on several of the conference's panels and also as part of the Committee to overview innovative research works.

GIWEH additionally signed a Memorandum of Understanding at the conference with SOPHEN, the Society of Public Health Engineers – Nepal.

The conference brought together more than 700 professionals, academics, and entrepreneurs to find innovative strategies to tackle water and environmental issues, develop climate resilient policies and to encourage the strengthening of effective partnerships.

# NEPAL - Memorandum of understanding between GIWEH and SOPHEN

GIWEH was honoured to sign a Memorandum of Understanding with the Society of Public Health Engineers – Nepal (SOPHEN).

The MoU was signed during the 2018 Water, Environment and Climate Change conference in Kathmandu and will promote cooperation in fields including the sharing of knowledge and personnel, the joint organisation of events and production of research.

GIWEH and SOPHEN additionally committed cooperation with the Nepalese government in 2019 to address problems raised during the WECC conference related to the lack of data on water and sanitation in Nepal.

# GIWEH at Vietnam International Water Week (4-7 March) *Hanoi, Vietnam*

*“The Global Water hub for Vietnam and Region”*

GIWEH was invited as a special envoy to the 9<sup>th</sup> world water forum for Vietnam Water Week as a chair and session moderator.

The event was hosted by the Vietnam water Cooperation Initiative (VACI), an organisation with a particular emphasis on tropical water issues.

# GIWEH at the inaugural Palestine Water Forum

***Palestine: “Integrated Water Resources Management: Best Practices and Technology Transfer”***

GIWEH was proud to attend the first ever Palestine International Water Forum as a member of its Scientific and organising Committee.

Dr Nidal Salim highlighted as a keynote speaker the topic of *"Building Independent State from the Water Point of View; Opportunities and Challenge & Water Integrity & Management of Public Private Partnership"*

The event represents a milestone in the development of Integrated water resources management in Palestine where GIWEH is looking forward to the continuation of the process.

# GIWEH at Korea International Water Week

*“Water Partnership for Sustainable Development”*

GIWEH was involved in the event as a KIWW Advisory Board Member since 2015 and Dr. Salim was a referee in the World Water Challenge 2018.

GIWEH joined the Water Leaders’ Round Table September 2018 at Daegu, Exco.

GIWEH had a fruitful discussion for cooperation with Korea Water Cluster. They visited the booth of the Cluster and reviewed most of the technologies which are available and discussed how to integrated these technologies on small and medium scale projects.

# GIWEH at the World Water Council

GIWEH presented by Director General Dr. Nidal SALIM, Dr. Dietrich Bartelt- Advisory Board member and Dr. Morgane Anziani-Vente, Project Officer GIWEH, had the pleasure to join the Board of Governance meeting of the World Water Council and the 8<sup>th</sup> General Assembly which aimed to influence the strategic orientation of the WWC by voting on policies and programs. It was also the occasion for members to elect the representatives of the Board of Governors for a term of three years, approve the triennial budget, and adopt the work program and By-Laws.

GIWEH as a Board member of AWC had the pleasure to announce that AWC become a Board member of WWC for the new mandate 2018-2021.

GIWEH also participated at the election of the board of the governance for the WWC for the mandate 2018-2021.

# GIWEH participation at COP24 in Katowice, Poland, 2018

GIWEH actively participated at COP24 through the promotion of its activities related to water and climate change, participating in the Water Sustainability Discussion and by joining the Global Climate Action. Director General, Dr. Nidal SALIM additionally announced the official launch of the 4th GIWEH International Water and Climate Change conference to be held in Morocco in partnership with the Ministry of Equipment, Transport Logistics and Water. The Morocco 2019 conference will be held as a preparatory event for the 9th World Water Forum, in Dakkar 2021. While members of GIWEH believe the agreement struck in Poland is not strong enough, as said by The Guardian, while climate talks continue, there is hope. Dr. Salim - "We have to push forward the water and climate change agenda and prepare well for COP25"

# GIWEH at the UK Parliament: "The Role of the Individual in Environmental Protection in Conflict Zones"

Director General of GIWEH, Dr. Nidal Salim addressed a large audience gathered at the UK Parliament in London, organized by the European Caucasus House. The event included representatives of the UK government and NGO leaders. Dr. Salim highlighted the issue of environmental protection within the framework of the 2030 Sustainable Development Goals. It is an area that links scientific research and knowledge with policy, political strategy, and socio-economic decision-making. Therefore, environmental protection requires a solid scientific basis for policy-making and inversely, environmental science requires strong political support. Whereas environmental protection provides important opportunities for peace-building. Indeed, at GIWEH we stress the importance of cooperation in environmental protection programs, and encourage projects that cut across borders, promote collaboration and peace, and implement a community-based approach to ensure sustainability of both the environment and of peace.

# OUR COMMUNITY

# IN 2018

We built strong connections and shared information through :

## **2 CAPACITY BUILDING PROGRAMS**

on Environmental Governance at the Graduate Institute of Geneva

## **8 INTERNSHIP OPPORTUNITIES**

With passionate young professionals from around the world

Partnered with UNESCO on a water security paper

Currently developing a water database

# GIWEH and the UN in 2018

- Hosted a conference on “Human Rights and Development in the Arab Region” Human Rights Council (28 February, 2018)
- Participated in the International Day for the Elimination of Racial Discrimination (21 March, 2018)
- World Water Forum at the UN High Level Political Forum (18-23 March, 2018)
- Participated in discussions at Geneva Peace Week event “Peace builders – Voices from Local Communities” (7 November, 2018)
- Participated in the Committee on Innovation as part of discussions on Public Private Partnerships (20-21 November, 2018)
- Non-profit sector representative at the UN Forum on Business and Human Rights (26-28 November, 2018)

# GIWEH's intervention on Human Rights and Development in the Arab Region at the UN 37<sup>th</sup> Human Rights Councils

- On Wednesday 28th February, GIWEH hosted a conference on **“Human Rights and Development in the Arab Region”** at UNOG. During that conference, which was moderated by Ms. Sarah Cabral from GIWEH, Dr. Nidal Salim emphasized the fact that the “Arab Spring” events have been strongly linked to Human Rights issues, including food and water security, women empowerment and children rights to education. Dr. Salim highlighted the importance of the Development agenda in the Region, and the urging need to promote good practices regarding Water and Environment.
- During the Conference, Mr. Ahmed Jamaa from Soutien Sans Frontières, presented warning numbers about the human rights crisis linked to water scarcity in Somalia. Mr. Adrian Oleszkiewicz from GIWEH also mentioned education as one of the main parameters in the Human Rights crisis. Finally Ms. Olivia Braud from GIWEH emphasized the importance for the Arab region to promote a unique development model, based on its own environmental agenda.
- GIWEH concluded by stating that the Arab region should focus on combating poverty, in order to address effectively the Human Rights issue.

# Participated in the International Day for the Elimination of Racial Discrimination (21 March)

Every person is entitled to human rights without discrimination. Yet, racism and intolerance are widespread, with an alarming rise in hate crimes, dividing ideologies and discourses, violence against minorities, people of African descent and Muslims, and human rights violations targeting migrants and refugees. At GIWEH, we strongly believe that it is our diversity that makes us stronger. As 2018 marks the 70th Anniversary of the Universal Declaration of Human Rights, let's make it true that "we are all born free and equal" with inspiring individuals such as [Sadiq Khan](#), let's say no to discrimination that divides us!

**Altogether, let's stand up for Human Rights**

# World Water Forum at the UN High Level Political Forum (18-23 March, 2018)

- World's biggest water-related event, the 8th World Water Forum, took place for the first time in the Southern Hemisphere in Brasilia, Brazil organized by the World Water Council, the event aims to, inter alia, promote awareness, build political commitment and trigger action on critical water issues at all level.
- Once again, GIWEH was taking a proactive role by focusing specially on the role of civil society on the Sustainable Development Agenda (SDG) and by participating to the different thematic sessions. According to Dr. Nidal Salim, general director of GIWEH, the 8th WWF offered a unique chance to address the issue of water sustainability. The Citizen Forum held during the event, created a dialogue between different actors and citizens such as experts, refugees and displaced people and will give them the opportunity to discuss action plans, projects implementations and strategies, to best reach the objective 6 of the UN Sustainable Development Agenda.
- GIWEH encouraged the CSOs and NGOs of all over the world to bring their voices and messages to the Forum.

# Participated in discussions at Geneva Peace Week event “Peace builders – Voices from Local Communities” (7<sup>th</sup> November)

GIWEH's voice was heard during interactive discussions with Peace builders and their experience from work with Local Communities. The focus was on storytelling, presented by panelists such as Fabrice Roman (Director, La Roseaie) and Mimoun Berrissoun (Director, 180° Wende, and Extremely Together Young Leader of The Kofi Annan Foundation).

# Participated in the Committee on Innovation as part of discussions on Public Private Partnerships (20-21) November

- GIWEH was an active participant of the Committee on Innovation, as part of discussions on Public Private Partnerships (PPPs) in Geneva from the 20th to the 21st of November, 2018.
- The Working group on PPPs is an intergovernmental body established in 2016 and it comprises over 2000 experts from the public and private sectors, NGOs and international organizations. The session was focused on the Sustainable Development Goals (SDGs), debating and endorsing a zero-tolerance approach to PPP procurement and a number of international PPP standards (in Railway, Roads, and Renewable Energy) will debated and endorsed.

# Non-profit sector representative at the UN Forum on Business and Human Rights (26-28 November)

GIWEH served as a representative of the non-profit sector during the 7<sup>th</sup> United Nations Forum on Business and Human Rights in Geneva. It took place between the 26th and the 28th of November, 2018, on the central theme of "Business respect for human rights – building on what works". This UN Forum was the world's largest annual gathering on business and human rights, counting more than 2,500 delegates from government, business, community groups and civil society, law firms, investor organizations, UN bodies, national human rights institutions, trade unions, academia and the media.

Over three days, participants took part in 60+ panel discussions on topics that relate to the [Guiding Principles on Business and Human Rights](#) (the United Nations "Protect, Respect and Remedy" Framework), as well as current business-related human rights issues and the 2030 Sustainable Development Goals.
